The Power of Words: An Intentional Writing Workshop to Support Clinical Work

Presented by:

**ALEXIS DONKIN, B.A., MA AND
CLAIRE FULTZ, LCSW-C**

Words shape reality by changing how we perceive an idea. Once an idea is in the world, it cannot be destroyed, but careful rephrasing can render it inert and completely change its impact. In this workshop, participants will embark on an exploration of how to leverage the potency of words and language to transform situations, nurture relationships, and effect personal change.

These exercises result in practical tools that can be immediately applied in clinical practice. Uncover the potential for profound transformation through the conscious and mindful use of language.
